COURSE DESCRIPTION

aims to groom the software skills and strengthen the computer application aspect of students. This prepares the students for the industry requirements so that they can flourish in the corporate IT Sector. MCA courses are more focused on implementation of Programming Languages, IT Skills and other such concepts with a detailed curriculum that stretches to five semesters. The sixth and final semester is dedicated to industrial training/ internship and projects. The MCA program focuses on providing a sound theoretical background as well as good practical exposure to students in the relevant areas. It is intended to provide modern, industry-oriented education in applied computer science. It aims at producing trained professionals who can successfully meet the demands of the information technology industry.

CAREER OPPORTUNITIES

aims to groom the software skills and strengthen the computer application aspect of students. This prepares the students for the industry requirements so that they can flourish in the corporate IT Sector. MCA courses are more focused on
