## COURSE DESCRIPTION

Graduation in Computer Application, is a course in the field of Computer Applications which involves study of numerous computer applications such as MS Office, Internet Applications, Operating System, Database Management System (DBMS), HTML among other subjects. The course curriculum ensures to provide an aspirant a deeper knowledge of the subject as well as will make the student technology friendly. After getting a graduate degree in computer application and having a good grip of the subject, one can either go for further studies in a related field or can get a decent job in the areas like Accounting, Database Handling, Basic Computer Applications, Software Developer ,Computer Operator, etc. Graduation in Computer Application is a program that aims to make students study computer applications in depth in a shorter period of time.

- The Graduation program imparts scientific, practical and technical knowledge to its learners about various computer tools that are used in day to day life.
- The applications and the programs taught make tasks simpler and provide ease of use to its users.

## COURSE INFORMATION

This is a professional graduate programme for candidates wanting to delve deeper into the world of computer application development with the help of learning modern programming language. The programme is a blend of both theoretical and practical knowledge. A graduation endows students' an opportunity to work with tools meant to develop better and faster applications.

There is no dearth of lucrative job opportunities for graduates. A candidate with a graduation in computer applications along with the right amount of relevant work experience, skill set and caliber can easily find great job opportunities at leading IT firms (both private and government) across India and abroad

<b>App Developer</b>	App developers are individuals designing, building and maintaining mobile application for android, iOS, windows, blackberry platforms etc.
<b>Business Analyst</b>	A Business analyst typically mentors people aiming to start a business of their own.
<b>Database Engineer</b>	Database engineers are hired by computer systems companies with an aim to design and monitor complex databases. The role revolves around ensuring the operation, validity and relevancy of the data.
<b>Ethical Hacker</b>	Ethical hackers are experts who access a network or computer system on behalf of its owner to uncover security vulnerabilities that a malicious hacker could possibly exploit.
<b>Hardware Engineer</b>	Hardware engineers install and test systems to ensure proper functioning of the internet. These folks are also involved in the testing and production of hardware equipment.

# Our Subjects

## YEAR 1

- Essentials of Management
- Advanced Java Programming
- Principles & Algorithms
- Soft Computing
- Computer Fundamentals

## YEAR 2

- Computer Security
- Internet and Web Designing
- Operating Systems
- Software Engineering
- Software Testing & Quality Analysis

## YEAR 3

- Visual Basics
- Graphics & Multimedia
- Database Management System
- Windows Programming & Visual C++
- Data Structures

## ABOUT US

N.I.M.S is a division of Norwich Group based in South India for more than a decade. Norwich Institute of Management Studies helps in training, online courses and online exams. All the Certificates are affiliated from International Council of Distant Education (ICDE). All the online courses and exams will be well monitored by the institution and, the provided certificates are ISO certified and can also be used for International Travel and study based programs.

## Exam & Duration:

**Online Exam: 2 hours/paper**

**Total Fees For Indian Residents : Rs. 47790**

**Total Fees For Foreign Residents : US \$ 815**
