BACHELOR PROGRAM IN CIVIL ENGINEERING

DURATION:
REGULAR (4 YEARS)
FAST TRACK (1 YEAR)

WORK EXPERIENCE: 4 YEARS MINIMUM

ELIGIBILITY: 3 YEARS DIPLOMA OR ABOVE

The right & deemed fit students will be provided with 100% placement assistance.

COURSE INFORMATION

- Civil engineering is a practice of developing and designing infrastructure projects. This can either be on a wider scale or on a smaller scale.
- All features of constructing a structure fall under the work of a Civil Engineer. This includes designing, planning, surveying, budgeting and analyzing.
- Civil engineering is a blend of many scientific areas. Study of these core elements will heavily eyed in the initial years of this course.

Study BE Civil Engineering

- The goal to attain a BE Civil Engineering degree will depend on each individual's aspirations and goals. Some of the reasons to pursue this course are as follows.
- Reputed profession: Civil engineering is a high demand field where skilled graduates are able to find open job positions immediately. It is one of the oldest and most reputable engineering divisions. Any student with the passion to excel in the field will find success soon.
- Civil engineers work in all the major construction projects taken up by the state or central government, private construction companies, the railways, engineering services, military, consultancy services, etc.

COURSE DESCRIPTION

After completing a course in Bachelors in Civil Engineering, the candidates can opt for various career opportunities and job prospects. The candidates who have pursued a degree in graduate course in Civil Engineering can go for either a government-based or a private based industry. The various job options which the candidates can opt for after pursuing a degree in Civil Engineering include Assistant Civil Engineer, Junior Construction Manager, Assistant Inventory Manager, Construction Project Assistant, Junior Plant Engineer, Professor, Consultant, etc. The starting salary of a candidate for Diploma in Civil Engineering ranges in between INR 3 to 6 LPA. The various areas of Civil Engineering which are covered by Diploma in Civil Engineering course include structures, Construction Management, Building and Shaping of Materials, Construction of Satellites, Dams, Highways, etc.

Our Subjects

YEAR 1

- Essentials of Management
- Risk & Value Analysis
- Quantity Survey & Estimation
- Construction Technology

YEAR 2

- Engineering Surveying
- Transportation Engineering
- Foundation Design
- Water Resource Systems

YEAR 3

- Solid & Hazardous
Waste Management
- Structural Analysis
- Concrete Technology
- Hydraulics & Hydraulic Machine

YEAR 4

- Construction Laws
- Steel Structure
- Strength of Materials
- PROJECT

Key Skills

Common skills gained with a civil engineering degree include:

- Ability to analyze complex data sets, and general analytical skills
- Very strong numeracy
- Technology literacy
- Presenting findings in written and spoken form, to an acceptable academic standard
- Problem identification and solving skills
- Project management and organization skills
- Ability to approach issues from multiple perspectives
- Strong communication and team work
- Budgeting and costing skills
- Knowledge of current planning and construction laws and regulations
- Understanding of contemporary issues in construction, environment and urban development

Entry requirements

Civil engineering skills are strongly rooted in mathematics and science, and a high level of proficiency in these subjects is required in order to predict the performance and capability of the structures they create. For this reason, students with strong backgrounds in physics and mathematics who are also interested in designing functional structures, from bridges to hydropower systems, are prime candidates to study civil engineering.

ABOUT US

N.I.M.S is a division of Norwich Group based in South India for more than a decade. Norwich Institute of Management Studies helps in training, online courses and online exams. All the Certificates are affiliated from International Council of Distant Education (ICDE). All the online courses and exams will be well monitored by the institution and, the provided certificates are ISO certified and can also be used for International Travel and study based programs.

Exam & Duration:

Online Exam: 2 hours/paper

Total Fees For Indian Residents : Rs. 66080

Total Fees For Foreign Residents : US \$ 1120
