## **Course Description**

Material Management program has been designed to offer to eligible candidates specialization in a wide range of management skills, while at the same time building competence in a particular area of business. Successful graduates of the course interested in pursuing further studies in the discipline may opt for pursuing M. Phil or even a PhD degree in the similar specialization. The program aims to build in students competent business acumen through advanced study of general subjects such as stock management, inventory management, demand and supply chain management and even purchasing and delivery management, later allowing them to specialize in a chosen area. The curriculum involves intensive study, culminating with the completion of a research-based dissertation. One of the principle objectives of the course is to prepare students for complete chain of sales in any dealer or distributor company, as also for pursuing advanced research in the discipline. The course's curriculum integrates theoretical and practical components of study.
