EXECUTIVE DIPLOMA IN LOGISTICS MANAGEMENT

Course Description

Executive diploma in Logistics management is the part of the supply chain process that plans, implements, and controls the efficient, effective flow and storage of goods, services, and related information from the point of origin to the point of consumption to meet customer requirements. Logistic resources, such as tanks, pipelines, and ships, have the main objective of making products, equipment, and raw material flow easier throughout processes to maximize profits. This Program helps the student in organizing, implementing and understanding the above procedures. 84% of supply chain professionals believe that big data and analytics will be "disruptive and important" to supply chain strategy
