

# DIPLOMA IN MINING MANAGEMENT

**Duration :**  
**Regular (1 Year)**  
**Fast Track Available**

## Course Description

The course will prepare its students for a career in mining engineering and related areas of engineering or research and development. It is also a great building ground for those who wish to study further in this field, and provides a specialized start for the same.

The course equips students not just with the essentials of mining engineering as a subject, but also the skills required to lead projects or communicate with clients that have invested in the extraction or the project as the case may be. It involves studying subjects such as electrical and mechanical engineering, engineering drawing, mining safety, mining survey, computer aided design and drafting, and etc.
